

## Automotive Alcohol Detection intelligent Key Cabinet

Incorporating current customer usage demands, we have developed a specialized intelligent car key management cabinet. This includes enhanced features such as alcohol detection, license plate display, and storage for vehicle documents. Additionally, it offers efficient gas card management and other unique specifications. SolidFob provides another advantage in ensuring the highest standard of quality control, non-reproducibility, durability and security.

### Specification parameter

Model	V10	Screen	6.95 inches, full viewing angle
Key Capacity	10	System	Android
Storage Capacity	10	Network	Wi-Fi (2.4G Wi-Fi only), Ethernet
Technology	Contact FRIF automatic identification	CPU	RK3288W 4x ARM® Cortex™ A17 1.6GHz 32-bit
Login method	Face, Pin Code	Storage Capacity	Memory 2G, Storage 8G
Size	1710*610*800MM	Biosensor Module	support
Weight	58KG	Working temperature	-20°C~60°C
Install	floor-standing	Main material	High quality 1.5~2.0mm galvanized Rolled steel

### SolidFOB
